BARNARD faces an historic year, since on November fifteenth, a new president will assume the leadership of the College. Miss Rosemary Park leaves her post at Connecticut College for Women, and, after a long anticipated trip to Japan, will become our second president.

My own fifteen years at Barnard have covered a transitional span in the life of the College. I inherited from Dean Gildersleeve a College with a strong academic tradition, a distinguished faculty, and a close relationship to Columbia University. During these years, we have aimed to increase our financial resources, so that we could make available higher salaries for our faculty and a plant more adequate to the purposes of the College. We have also strengthened our ties to the University and to the community.

The entire College looks forward with eagerness to the next stage in its history. We are confident that under Miss Park's leadership Barnard will go forward steadily to reach new heights of academic achievement.

III. An Introduction to the College

BARNARD'S HISTORY

Barnard College was among the pioneers in the crusade, waged so ardently in the late nineteenth century, to make higher education available to young women. The history of its achievement is an integral part of the history of Columbia University.

The University had its origin in the royal charter granted by George II in 1754 to the Governors of the College of the Province of New York, creating them a Body Corporate to erect and maintain King's College "for the Instruction and Education of Youth in the Learned Languages and Liberal Arts and Sciences." The Revolutionary War interrupted its active work when its buildings were requisitioned by the Continental Armies, but in 1784 it was re-opened as Columbia College. In 1896 it was designated a university, and in 1912 its title was legally changed to Columbia University in the City of New York.

Barnard College had its inception in an idea, proposed in 1879 to the Trustees of Columbia by its tenth president, Frederick A. P. Barnard. It was his conviction that "in the interests of society the mental culture of women should be not inferior in character to that of men," and that young women should, therefore, be admitted to Columbia College. This thought which "failed to attract the serious attention of the Trustees," was, nevertheless, rigorously developed by President Barnard, and in 1883 a petition signed by over a thousand citizens of New York culminated in the inauguration of the "Collegiate Course for Women." Women who passed "a very strict entrance examination" were authorized to follow a prescribed course, but were left "entirely free as to where or how to carry on [their] studies, whether in some school, private or public, or at home, or under the auspices or direction of any association interested in [their] welfare and advancement." "Suitable academic honors and distinctions" were awarded to those who on examination were found to have pursued such courses with success. This system was destined to please no one, neither the young women whose search for instruction was made so difficult, nor Columbia College whose degree could thus be conferred on the strength of examinations only. Six years later when Certain Friends of the Higher Education of Women presented still another proposal to Columbia's Trustees, cooperation was obtained for the establishment of an affiliated college for women. A provisional charter was granted by the State of New York, promise of funds for the first four years was secured, and its name, in honor of its most prophetic and persistent advocate, was chosen.

In October, 1889, the first class of Barnard College met in a rented "brownstone" house at 343 Madison Avenue with fourteen students enrolled in the School of Arts and twenty-two students in science, who, lacking the entrance requirement in Greek, were known as "specials." Six members of Columbia's staff gave instruction in prescribed subjects: English, French or German, Greek, Latin, and mathematics. A fellow of the University of Pennsylvania, Dr. Emily Gregory, volunteered her services as botanist, and Columbia's sanction of this role was soon bestowed by her appointment as its first woman lecturer.

Nine years later Barnard moved to its present site on Morningside Heights, and in 1900 it was incorporated in the educational system of Columbia University with provisions which at that time were unique among women's colleges: it was to be governed by its own Trustees, Faculty, and Dean; it was responsible for its own endowment and plant; it shared the instruction, the library, and the degrees of a university.

BARNARD TODAY

Barnard today presents rewarding contrast to the pioneer days. The teaching staff of six has grown to more than 200 men and women, some of them members of the University Faculties and some coming to the classrooms from the world of literature, the theatre, and the arts. From the original fourteen matriculated students, enrollment has increased to nearly 1500; since 1893 Columbia has awarded its degree to 12,300 Barnard students. Pledges of support for the first college generation have expanded to current endowment funds of \$10,586,000.

Within the University Barnard's corporate identity is maintained as an independent college for women. The curriculum offers the undergraduate opportunity to cultivate the liberal arts, to explore her cultural heritage, to discover and develop her capacity for intellectual adventure, and to establish habits of thought whereby she may utilize her knowledge in all facets of her future life.

Specific requirements for the degree are designed to give some comprehension of the roots of our civilization, and an awareness of the diverse areas of human thought and their interrelationship: courses in humanities enlarge the student's contact with literature and such fields as philosophy, religion, music and fine arts; a year's work in history is required as well as courses which deal with some phase of contemporary society; acquaintance with the ideas and methods of both physical and biological science is considered essential for an informed person in the modern world; finally, competence in at least one foreign

language, to serve as an instrument for understanding and evaluating the achievements of other nationalities and as a basis for communication with peoples whose history and traditions may differ from our own. This comprises the basic curriculum of each student. Assistance in planning her individual course of study is given by her class adviser, a member of the teaching staff who supervises the work of the freshman and sophomore years.

At the end of this period each student chooses her major field. During the junior and senior years her major adviser guides advanced study in the area of concentration and all other phases of the college work. A major is offered by every department and there are interdepartmental majors in interrelated fields.

Classes vary in size. Language classes are small as are other courses in which student participation is important. All introductory courses and classes taught primarily by the lecture method are divided into small groups for conference and discussion. Some undergraduate courses are held with Columbia College and the Departments of Greek and Latin, Italian, Mathematics, Music, Physics, and Religion are conducted jointly with the University. Graduate courses are also open to qualified upperclassmen.

THE CAMPUS

The campus now occupies four acres of land adjacent to Columbia between 116th and 120th Streets. The residence halls, Brooks and Hewitt, and Helen Reid Hall, opened in the autumn of 1961, face an open quadrangle. Milbank Hall at the northern end of the campus contains administrative offices and classrooms, the laboratories and libraries of the natural sciences, a greenhouse for the use of botany students, penthouse studios and practice rooms for music, and the Minor Latham Drama Workshop, where drama students and dramatics groups may use the equipment of a modern theatre. The French, German, and Spanish Departments in Milbank Hall have social and reading rooms, furnished by friends of the College with valuable paintings, music records, and books. In Barnard Hall are the gymnasium, the swimming pool and dance studios, English seminar and classrooms, a spacious social center known as the James Room, and the Annex with a lounge and snack bar and quarters for student organizations.

Adele Lehman Hall, the new five-story building containing the Wollman Library and classrooms, was opened in the autumn of 1959. The Library was designed to provide for an expanding collection of both

book materials and of services, thus to make available opportunities for independent work in advanced courses. It has a growing record collection with ample listening facilities, as well as an audio-visual studio and control room for the recording of tapes and for the use of other audio-visual equipment. The print room offers facilities for the study of photographs and art reproductions. Carrels are provided for individual study, a seminar room for class use of library materials, and small rooms for typing and for informal student discussion. The open shelf arrangement, occupying three and one half floors, has a capacity of 150,000 volumes, and Barnard students have access also to the over 3,000,000 volumes in the University libraries. Offices and seminars of the social science departments and classrooms occupy the top floor. A thirty booth language laboratory on the ground floor is utilized by all language departments and by students of English speech.

STUDENT LIFE

Barnard's student population is cosmopolitan in nature. Two thirds of its students live within commuting distance; the remaining third come from nearly every state in the Union and some twenty-five foreign countries. All represent diversity in background and training, a mingling of economic, regional, and cultural strains which find expression in the life of the campus.

The Undergraduate Association, of which all students are members, sponsors extra-curricular activities reflecting the current interests of the entire group: the college newspaper, the literary magazine, dramatics clubs, political and religious clubs, the pre-medical club, and clubs representing many departmental fields. Students from Barnard and Columbia jointly plan the social program of the two colleges, which invites membership in the University Chorus and Orchestra, Barnard's Gilbert and Sullivan Society, and the staff of the University radio station.

The freshman and sophomore festival, Greek Games, is presented in the spring. Themes from classical mythology are portrayed in original dance, music and verse, and an athletic contest is climaxed by a chariot race in which class teams of four "horses" compete in exciting style.

In the college community the Undergraduate Association takes wide responsibility and its members serve on important Faculty-Student committees. All students are automatically under the jurisdiction of the Honor Code, administered by the Honor Board of the Association, whereby a high standard of honor in examinations and all other phases of college life is maintained.

BARNARD COLLEGE

Religious organizations and activities, with headquarters on the Columbia campus in Earl Hall, are open to all students. The Thursday Noon Meeting at Barnard provides a weekly forum for discussion of contemporary religious and philosophical thought by faculty and guest speakers and students. The devotional life of College and University is centered in St. Paul's Chapel, where week-day and Sunday services are held at which attendance is voluntary. Through the cooperation of the Chaplain and counselors of various faiths a unity of religious life is secured within the University, while within each faith its own traditions are maintained.

The Athletic Association sponsors many campus activities, such as tennis, basket-ball, water ballet, fencing, and modern dance. Intercollegiate Sports Days held throughout the year enable students to participate in athletic events with other colleges. In 1933 the Barnard Camp, twenty acres of wooded land in Westchester County, was purchased by the alumnae, providing an accessible site for recreation during country week-ends.

NEW YORK IS BARNARD'S LABORATORY

Fifty years ago Nicholas Murray Butler, one of Columbia's great presidents, observed, "New York is intensely cosmopolitan and contact with its life for a short time during the impressionableness of youth is in itself a liberal education." The city is an extension of the campus, utilized by every department to narrow the gap between learning and living. Barnard is a university college in an international city, and today the curriculum affirms and encourages precise and graphic use of its vast metropolitan laboratory.

IV. Admission

Since entering classes are limited in size, admission to Barnard College is on a selective basis. The Committee on Admissions endeavors to choose candidates who seem most receptive to the discipline and challenge of a liberal arts education. Each applicant is considered in the light of her past performance, the qualities of mind and spirit which insure her growth as an individual, and her ability to contribute to the growth of those with whom she will associate in college and throughout her adult life.

The College believes it is also desirable for the student body to represent a stimulating variety of schools, both public and independent, from all parts of the United States and from abroad.

Students who wish to discuss their plans with a member of the Admissions staff may request an interview at the College in the fall of their senior year, or in their junior year except during the period between March 1 and May 1. Whenever it is possible the College will arrange interviews with alumnae for those students who are unable to visit the campus.

ADMISSION TO THE FRESHMAN CLASS

Application for admission to the freshman class should be made before January 15 of the year of entrance. It is advisable, however, to apply by the end of the junior year or the fall of the senior year. Application forms may be obtained by writing to the Director of Admissions.

A non-refundable fee of \$15 must accompany each application.

Students are admitted to the freshman class in September. They must be at least fifteen years of age, and should present the following credentials:

- 1) Evidence of good character, which is obtained from confidential reports from the applicant's secondary school principal and teachers and, if possible, through a personal interview at the College.
- 2) Evidence of sound health, to be submitted as soon as the applicant has been accepted, on forms provided by the Office of Admissions.
- 3) Evidence of intellectual ability and achievement, which is reported by the secondary school to the College, and is also demonstrated by the required College Entrance Examination Board tests.

Candidates for admission must offer a college preparatory program from

an approved secondary school or should have equivalent education representing a four-year course of study. Academic preparation for admission should be based on the requirements for the A.B., or liberal arts, degree, and should include four years of work in English, three years in one foreign language and two in another, and college preparatory mathematics studied for two years. The remainder of the course should consist of work in history, science, mathematics, music, art, or additional work in language. For pre-medical students advanced work in science, mathematics and German is advised. Pre-engineering students should offer three years of social studies, two years of French or German, mathematics through solid geometry and trigonometry, physics and chemistry.

The Committee on Admissions is willing to consider the applications of students whose preparation may vary from the usual pattern but whose records give evidence of genuine intellectual ability and interest.

Every candidate for admission to the freshman class is required to take the College Entrance Examination Board Scholastic Aptitude Test and three Scholastic Achievement Tests. The latter must be taken in (1) English composition, (2) a foreign language, and (3) social studies, science or mathematics. The Scholastic Aptitude Test should be taken in December or January of the senior year in high school. Achievement Tests in continuing subjects (English, foreign languages, mathematics, etc.) should be taken in December or January of the senior year. Achievement Tests in one-year subjects or those completed in the junior year may be taken in May of the junior year. If the Scholastic Aptitude Test is taken for guidance purposes in the junior year, the scores should be reported to the College.

EARLY DECISION PLAN

In order to alleviate some of the problems arising from multiple applications, Barnard, with the other members of the Seven College Conference, has agreed to take action in the fall of the senior year on the applications of well-qualified students who have made their choice of a college by that time. Students wishing to apply under this early decision plan must be certified by their schools as having filed only one application.

Single-choice candidates for Barnard admission in September, 1963, should send their application to the Office of Admissions, Barnard College, New York 27, before October 15 of the senior year. Applications must be accompanied by the \$15 application fee.

Late in November Barnard will send to single-choice applicants letters of admission or rejection, or, in doubtful cases, postponement of decision until the customary date in the spring. Each applicant will be considered on the basis of (1) the recommendation of her school prin-

cial or guidance counselor; (2) her three-year record at school; and (3) the results of the required College Board Scholastic Aptitude Test and the Scholastic Achievement Tests taken in her junior year.

The successful candidate will be expected to complete her senior year satisfactorily and to submit a record of that year's work. She will not be asked to repeat any College Board examinations. She must agree to pay to Barnard in February, 1963, a deposit of \$100 if she is to be a non-resident student, and \$150 if she is to be a resident student, to hold her place in the freshman class.

The candidate on whose application decision has been postponed will be given full and careful consideration in the spring. She will be asked to submit a record of her school work for the first half of her senior year, with the results of senior College Board Scholastic Aptitude and Achievement Tests as additional evidence.

Candidates on whose credentials favorable action is not taken may file applications at other colleges after receiving their notification from Barnard.

THE COLLEGE ENTRANCE EXAMINATION BOARD TESTS

The College Entrance Examination Board will administer the following series of tests in 1962-63:

12/7/63	Saturday, December 1, 1962	5/2/64	Saturday, May 18, 1963
1/11/64	Saturday, January 12, 1963		Wednesday, August 14, 1963
3/7/64	Saturday, March 2, 1963	7/8/64	

Candidates should write directly to the College Entrance Examination Board, Box 592, Princeton, New Jersey, for the Bulletin of Information containing descriptions of the Scholastic Aptitude and Achievement Tests, directions for filing applications, and lists of examination centers. When requesting the application forms, candidates should state the month in which they wish to take the tests.

Residents of California, Oregon, Washington, Idaho, Montana, Wyoming, Utah, Colorado, Nevada, Arizona, New Mexico, Alaska, Hawaii, Australia, Mexico, and the Pacific Islands should write to the Pacific Coast Office of the Board, Box 27896, Los Angeles 27, California.

To facilitate the arrangements for the conduct of the tests, all applications should be filed as early as possible. The normal closing date for the receipt of applications in Princeton, New Jersey, or Los Angeles, California, for candidates outside the United States, the Canal Zone, Canada, Mexico, and the West Indies is two months before the date of the examination; for all other candidates the closing date is four weeks before the date of the examination. A penalty fee of \$3 to

BARNARD COLLEGE

accompany the application will be charged for applications received later than the normal closing date.

No applications received in Princeton or Los Angeles later than two weeks before the examination date will be considered. Candidates may not register for the tests at the examination centers. Each application should be accompanied by the appropriate examination fee:

Scholastic Aptitude Test alone.....	\$ 5.00
One, two, or three Achievement Tests.....	8.00

The Board will report the results of the tests to the institutions indicated on the candidates' applications. The colleges, in turn, will notify the candidates of the action taken on their applications for admission. Candidates will not receive reports of their tests from the Board.

ADMISSION WITH ADVANCED PLACEMENT

Students may be permitted to register for courses above the level of the freshman year, if they complete advanced work in secondary school and present satisfactory scores on the Advanced Placement Test of the College Entrance Examination Board. Such placement is not automatic, but is determined by each department concerned. A maximum of 12 points of academic credit may be awarded for this work, *by application at the end of the freshman year.*

ADMISSION TO ADVANCED STANDING

Transfer students are admitted in September and in February. Candidates should present a strong record of not less than one year's work at an accredited college, or foreign university or institution of equivalent grade. In general, credit is given for courses taken at another college which are similar in content to those offered at Barnard. (See also page 35.)

The student should submit with her formal application the following credentials: her secondary school record; a recommendation from her principal and her college dean or class adviser; a complete and official transcript of her college work and a copy of the college catalogue in which the courses she has taken are clearly marked; the results of the College Entrance Examination Board tests. A candidate will be asked to take the College Entrance Examination Board Scholastic Aptitude Test if she has not already done so. No definite credit for junior college work can be assigned until the student has had an opportunity to establish a satisfactory record at Barnard.

In all cases, final action on admission depends upon the receipt of a statement of honorable dismissal, which is a certificate of good character from an authorized representative of her college, and the required health reports.

Application for admission to advanced standing should be submitted before May 15 for admission in September and before December 1 for admission in February. All credentials should be in the hands of the Committee on Admissions by September 15; otherwise, the student may be asked to postpone registration until after classes begin, thereby incurring an additional fee of \$15 for lateness.

Seniors who are degree candidates of other colleges may apply for permission to complete their requirements at Barnard. Applicants must present satisfactory college records and letters of approval from their Deans. All students are expected to comply with the Barnard regulations concerning attendance and course examinations.

ADMISSION OF FOREIGN STUDENTS

The College is interested in the applications of qualified foreign students. These candidates are expected to take the Scholastic Aptitude Test given by the College Entrance Examination Board, if they can arrange to do so. (This test examines the student's ability to understand word relationships and to comprehend what is read, and the ability to understand and solve mathematical problems.) Requests for an examination center overseas should reach the College Board two months prior to the dates listed on the previous pages. Students whose native language is not English should also take the American University Language Center Test. Arrangements for this examination should be made through the nearest United States Consulate.

All foreign students must take English placement tests in writing, aural comprehension, and speech during the week of registration in September or in February. Failure to pass these tests will necessitate remedial courses in English at Columbia University, either without academic credit or with limited credit, depending on the level of the course and the grade obtained.

Definite credit for study at foreign institutions is not assigned until a full year of satisfactory work has been completed at Barnard.

For information concerning the Medical Expense Policy which is obligatory for foreign students whose home is outside the United States, please see page 166.

Candidates are urged to communicate with the Director of Admissions well in advance of the date they wish to enter, so that the College may be of assistance to them in making their plans.

ADMISSION AS SPECIAL STUDENTS

Mature students who wish to pursue serious study at an advanced level, without working for a degree, may in some cases be admitted for one

BARNARD COLLEGE

year as non-matriculated students. They must submit evidence of good character and proof that they are qualified scholastically to take the courses of their choice. Students who wish to remain as special students for more than one year must receive permission to do so from the Committee on Instruction, and must maintain an academic standing of at least 2.00 (C).

Special students are governed by the same attendance, course examination, health, proficiency and deficiency regulations as matriculated students. They are entitled to a formal statement testifying to the courses they have taken. If they satisfactorily complete thirty points of work, they may apply for transfer to a matriculated basis as candidates for a degree.

RE-ADMISSION

A student who has withdrawn from the College, or who has been on leave of absence, is not automatically re-admitted. She should make application for re-admission to the Director of Admissions. A non-refundable fee of \$15 must accompany the application. Credentials are due by December 1 for the spring term, and by May 1 for the autumn term.

V. Degree Requirements

ACADEMIC REQUIREMENTS FOR THE A.B. DEGREE

Requirements for the Bachelor of Arts degree serve as a framework for the acquisition of knowledge of the various fields of human thought, and have been planned to secure for the student a sound foundation in the liberal arts and sciences on which to base intensive work in the sphere of her special interest. These requirements call for the completion of 120 points (a point is considered to be the equivalent of fifty minutes of class work a week and two hours of preparation) and include the following:

I. English A1–A2

The introductory course, Reading and Writing. (Foreign students please refer to page 31.)

II. Foreign Languages

(a) Competence in one foreign language. This requirement may be fulfilled either by passing a placement examination with a sufficiently high score, or by satisfactory completion of a designated course. (See the statement under the appropriate language department for further details.)

(b) One full-year course in a second foreign language unless the student has had the equivalent (two years) in high school. It is advisable to postpone this until the first part of the requirement (a) has been satisfied.

III. Humanities (12 points, or 10 points, if Art History 1–2 is elected without laboratory).

(a) Literature: One full year (6 points) to be studied in the language in which it was written originally, normally the six points to be taken in the same language.

(b) Six points: Art history; literature (in the original or in translation); music; philosophy; religion; (or four points, if Art History 1–2 is taken without laboratory).

IV. Social Sciences (12 points).

(a) History (6 points).

European: 1–2

American: 9–10; 33–34; 45–46; 55–56

BARNARD COLLEGE

(b) Contemporary Society (6 points).

Anthropology 1, 2

Economics 1—2; 19; 25, 26; 31

Government 1, 2 (both terms); 7, 8; 9; 10; 11; 12

Psychology 37

Religion 25; 26

Sociology 1—2

Unless both terms are indicated, any combination of these courses may be made.

V. Natural Sciences (14—16 points).

Two full-year courses, one of which must include laboratory work (8-10 points). The sciences are divided into two areas. Both areas must be represented, unless mathematics (6 points) is elected to fulfill the non-laboratory science requirement.

Physical

Chemistry

Physical geography

Geology

Physics

Biological

Anthropology (physical)

Botany

Psychology: Any two of these courses: 5; 8; 11; 18; 27; 30

Zoology

VI. Hygiene (2 points).

VII. Speech (English D). (No credit).

Individual speech test required of all freshmen and transfer students.

VIII. A major field to be selected before the end of the sophomore year, consisting of not less than 28 points of prescribed work. Each department requires, as specified, either a senior thesis or a major examination. A major may be chosen in any one field, or in such combinations as are approved by the Committee on Instruction. Transfer students are required to take a minimum of 18 points in their major at Barnard.

IX. Electives: To be chosen in accordance with the interests and objectives of the student (40 to 44 points).

X. Physical Education (required through the junior year).

Students' programs are planned with the advice of the class and major advisers and are filed on dates announced by the College (see page 37).

DEGREE REQUIREMENTS

MAJOR FIELD REQUIREMENTS

In addition to the 28 points of course work prescribed, each department requires special work to coordinate the student's knowledge in the major field. The exact nature of these requirements varies with the subject matter and the department's conception of the best method of mastering it. In some, a major examination must be taken; in others, a senior thesis must be written or a senior seminar successfully completed. Specific requirements are listed in the departmental statements, beginning on page 46. At the end of the sophomore year each student chooses her major adviser, with whom she plans all subsequent work in her area of concentration.

CREDIT

All requirements must be completed within six years from the student's matriculation as a freshman at Barnard or elsewhere.

Fifteen of the points of the senior year must be taken at Barnard except by special permission of the Committee on Instruction. Normally, such permission is granted to students who have spent no less than two years at Barnard; whose scholastic standing is above average; and who present a well-planned program approved by the major department.

In order to be recommended for the degree a student must maintain a cumulative average of 2.00 (C) for her entire course and for her senior year specifically. (See Grading System, page 41.)

REQUIREMENTS FOR TRANSFER STUDENTS

Before registration an estimate of credit is sent to students transferring from other colleges as a guide to the required work to be completed at Barnard. The student in conference with her advisers determines her program of work, taking into account her previous academic record and future plans. The following restrictions should be noted:

All transfer students are required to take the English proficiency test before registration. Any student who has had an introductory course comparable to English A1-A2 is allowed to fulfill the English requirement by offering this course from another college, provided she passes the proficiency test. Others are assigned either to English 1, 2 or to other English courses suited to their needs.

Transfer students are also required to take a language placement test before registration. They will be assigned to the course which the results of the test indicate they are prepared to take. A high score on the placement test will give exemption from the language requirement. On the other hand, should the student be placed in a language course

BARNARD COLLEGE

lower than one she has already passed at her former college, she will lose credit for the introductory work. Transfer work in literature, of a level comparable to courses offered by the Barnard College language departments, will be counted as elective credit and may be used to satisfy the *literature* requirement, even though the student may be required to take additional work in the language in order to complete the *language* requirement.

All transfers are required to take the hygiene exemption test before registration. Those who do not pass the test must take Hygiene 1 (see page 105) during the autumn term.

A maximum of 32 points towards the Barnard degree is allowed for one year's work elsewhere. Sixty of the points to be counted towards the degree must be taken at Barnard, as well as a minimum of 18 points in the major field. Not more than 6 points of work of D grade done elsewhere may be counted towards the degree.

VI. General Information

REGISTRATION

Prior to registration incoming students discuss their programs with their class adviser. For freshmen individual appointments are made during September, and for transfer students they are planned for the four days preceding the opening of college. Class advisers for the freshman and sophomore years are appointed from the teaching staff and are prepared to give information and advice on all matters pertaining to the curriculum. For the year 1962-63 the class advisers are:

MISS MARIANNA BYRAM	Adviser to the Class of 1966
MRS. JULIA HIRSCH EBEL	Adviser to the Class of 1966
MRS. TATIANA GREENE	Adviser to the Class of 1965
MISS JIMMYE E. KIMMEY	Adviser to the Class of 1965

On Friday and Saturday, September 21 and 22, the freshmen meet together for the first time. The University campus is explored and the varied activities of college life are introduced by upperclassmen and officers of the undergraduate groups.

Registration for all students takes place in the Gymnasium, Barnard Hall, as follows:

Autumn Term

Monday, September 24	Old day students
Tuesday, September 25	Transfers and all resident students (except freshmen)
Wednesday, September 26	Transfers and all freshmen

Spring Term

Monday, February 4	All students (M-Z)
Tuesday, February 5	All students (A-L)

Registration is not complete and classes cannot be attended until all fees, including those for residence, are paid. A fee of \$15 is charged for failure to register on the dates indicated. (See also Payment of Fees, page 164.)

No student will be permitted to register after two weeks from the official opening date of either term.

REGISTRATION IN ABSENTIA

A student who leaves the College to study at another institution with the intention of offering for credit towards the Barnard degree the work

BARNARD COLLEGE

completed at the other institution, is required to register *in absentia*. (See Fees, page 162.) Registration *in absentia* is allowable for one term or two consecutive terms only. The course of study to be pursued must be approved in advance by the Committee on Programs and Standing.

Students who have been registered *in absentia* during the previous academic year should notify the Office of Admissions of their intention to return by December 1 for the spring term and May 1 for the autumn term. They may complete their registration only after the required health form has been approved by the College Physician.

ACADEMIC DISCIPLINE

The continuance of a student upon the rolls of the University, the receipt of academic credit, graduation, and the conferring of the degree are subject to the disciplinary powers of the University, which is free to cancel any registration if it seems advisable. The authority of the University is vested in the President of the University. With regard to Barnard students it is exercised by the President of Barnard College in all such cases as the President of the University deems proper.

ATTENDANCE

All students are expected to attend classes regularly. Students who absent themselves from classes must expect the quality of their work to be affected, with consequent detriment to their academic standing. Frequent or prolonged absences from the College without a compelling reason such as illness will cause a student to forfeit the right to make up work or take final examinations.

The attendance of freshmen and students who are on probation is subject to special review by the Dean of Studies. Excessive absence in their cases may result in loss of credit from the total number of points for the term without regard to grades.

All absences due to illness must be reported on forms available in the office of the College Physician. Illness is considered an excuse for excessive absence only if the student's statement is filed immediately upon her return to college.

Students who are prevented by conscientious scruples from complying with academic requirements on days set apart by their church for religious observance should discuss this problem with their religious counselor and have a statement from him filed in the office of the Dean of Studies.

WITHDRAWAL

A student in good academic standing, not subject to discipline, may withdraw from the College with an honorable discharge. Written notification of withdrawal must be sent to the office of the Registrar. A student under twenty-one years of age must furnish written assent of a parent or guardian. (See Refunds, page 163.)

Requests for leaves of absence should be addressed in writing to the Dean of Studies. A student in good standing may be granted a leave of absence for one term or two consecutive terms only, for personal reasons, *e.g.*, health, marriage, financial necessity.

CLASSIFICATION OF STUDENTS

Students are classified as follows:

Freshmen:	those who have completed fewer than 24 points of academic work
Sophomores:	those who have completed 24 points
Juniors:	those who have completed 54 points
Seniors:	those who have completed 86 points
Unclassified:	those who have not yet been assigned definite credit on transfer
Non-matriculated:	those who are not candidates for the degree

No matriculated student may change her status to that of non-matriculated student.

CHANGE OF PROGRAM

Students may change the programs for which they have registered, through Thursday, October 11, Autumn Term, and Wednesday, February 20, Spring Term. After that date, changes of program are subject to the following regulations:

Section Changes: Sections may not be changed except at the written request of the instructor.

Adding Courses: No course or point may be added for any reason.

Dropping Courses: A course may be dropped with the written approval of the class adviser (for freshmen and sophomores), the major adviser (for juniors and seniors), or the College Physician. The application must bear the signature of the instructor. After a fixed date (December 15, Autumn Term; April 15, Spring Term), no course may be dropped except with the approval of the Dean of Studies, and then only for reasons of serious personal emergency.

Audited Courses: No change from a non-credit to a credit basis may be

BARNARD COLLEGE

made under any circumstances after the final date for adding a point or a course.

PROGRAM RESTRICTIONS

Certain restrictions apply to all programs and any variation must have the approval of the Committee on Programs and Standing. The minimum number of points that may be elected each term is 12 and the maximum 16; the maximum number of courses is five. On any one day no more than four hours of class work may be taken, or more than seven hours of class and laboratory work combined. Students may not elect courses meeting consecutively at 11, 12, and 1 o'clock on the same day; one of these hours must be kept free.

All courses must be elected for the credit value announced. No credit is allowed for a one-hour course unless taken in conjunction with the course which it supplements.

COLUMBIA UNIVERSITY COURSES

Under certain conditions courses in other divisions of the University may be elected when an equivalent course is not offered at Barnard.

Graduate Faculties: Courses in the Faculties of Political Science, Philosophy and Pure Science are open to qualified upper classmen who need this work to achieve their specific objective in the major field. Such students must obtain the approval of the major adviser and the chairman of the Barnard department concerned. This privilege is intended primarily for members of the senior class.

Seniors with high academic standing may apply for permission to count up to 12 points of graduate work in the major field towards the graduate degree. Those who wish to register for graduate courses to count towards a higher degree must comply with the following conditions:

1. The approval of the chairmen of the Barnard and Columbia departments, the Graduate Admissions office, and the Committee on Programs and Standing must be obtained in advance and filed in the Registrar's office.
2. The student must be in her senior year.
3. The program for the term must not be in excess of 16½ points.
4. The points for graduate credit must be over and above the 120 points required for the A.B. degree.

Columbia College: Certain courses at Columbia College may be elected, in addition to those in this announcement. A list of these is provided by the Barnard Registrar.

School of General Studies: Courses in the School of General Studies which are not listed in this announcement may be elected with the

approval of the class or major adviser and the Committee on Programs and Standing. They will be credited towards the degree, if passed with a grade not lower than C. Fees for General Studies courses not listed in the Barnard announcement are paid for by the student herself (\$40 per point), over and above the Barnard tuition, with the following exceptions:

1. Courses which are essential to the major for which the approval of the major adviser and the Committee on Programs and Standing is obtained.
2. Language courses not offered at Barnard which are approved by the Committee on the Foreign Language Requirement for satisfaction of the language requirement. Note: Exemption from additional fees is given only for courses at the third-year level.
3. Courses certified by the chairman of a department as essential to a program of work to be taken in a particular field under the direction of the department.

Teachers College: Certain courses may be taken for credit by qualified seniors with the consent of the Dean of Studies and the Registrar of Teachers College. Fees for these courses (\$40 per point) are not included in the regular tuition, but are added to the Barnard bill.

SUMMER STUDY

A student will normally be expected to spend four years completing work for the degree; some credit, however, may be earned in summer school under the following conditions:

The entire summer program must be approved in advance in writing, first by the class or the major adviser, and secondly by the chairman of the Barnard department. Programs must be approved and submitted to the Registrar before the last day of the spring term. Official reports must be filed with the Registrar not later than November 1.

Not more than two courses may be elected in any one summer. Courses of less than six weeks' duration are credited only in exceptional cases.

No course with a grade lower than B- will be credited towards the degree.

Grades will not be included in the Barnard average.

GRADING SYSTEM

Academic standing and eligibility for graduation are determined by the quantity and quality of the student's work. The quantity is estimated by the number of points completed. The credit value in points follows each course title, one point as a rule meaning fifty minutes of class work per week and approximately two hours of preparation. (Laboratory

BARNARD COLLEGE

courses, studio work, etc., are exceptions.) Quality of work is gauged numerically by a system of credit ratio, which is the ratio of the number of credits received to the number of points elected. A or A— indicates excellent work; B+, B, B—, good; C+, C, C—, fair; D, poor; F, failure, and P, passed without a specific grade. Work in the major field of unusual merit is awarded the grade, Passed with Distinction.

A course is marked Incomplete (Inc), if the instructor has given the student written permission in advance to postpone the submission of required work. The card signifying such permission must be filed with the Registrar by the announced date. The grade for this work automatically becomes F, if not completed within three weeks after the end of the term. Absent (Abs) means absent from the final examination, and Deferred (Def) means that the grade has been deferred because of illness during the examination. WD-F signifies that the student withdrew from the course without formal notification.

Each point with a mark of $A = 4$; $B = 3$; $C = 2$; $D = 1$; $F = 0$; $WD = 0$. For every plus or minus an adjustment of $+0.3$ or -0.3 is made. The average mark per point is the student's rating and is computed at the end of each term.

In any one year no more than 6 points of D work may be counted, and no more than 24 points of D in the total number of credits. Work of D grade is not counted in the major field, although it is included in the average for the major.

At the end of each term all records are examined. Normally only those students whose cumulative average is 2.00 (C) or above are permitted to remain in college. The continuance in college of students whose work falls below this average depends upon promise of future development and is determined by the Committee on the Academic Standing of Students.

EXAMINATIONS

Examinations are scheduled at the end of each term. For the academic year 1962-63 they will be held on January 21-31 inclusive and May 20-30, inclusive.

Deficiency examinations, given in September and March, are open only to those students whose work is satisfactory and who were absent from the regular examinations for reasons of illness, or extreme family emergency. Exceptions to these conditions can be made only by ruling of the Committee on the Academic Standing of Students in individual cases. Examinations missed in January are to be taken the following March or, in cases of prolonged illness, in September of the same year. Those missed in May are to be taken in September of the same year. If a student absents herself without a valid excuse from a final or defi-

GENERAL INFORMATION

ciency examination, she will receive a grade of zero for that examination. A fee of \$5, payable in advance, is charged for each deficiency examination.

A senior who has missed an examination at the end of her last term may apply for a special examination for which the fee is \$10, payable in advance.

QUIZZES

Instructors are not required to give make-ups to those absent from previously announced quizzes. In case an instructor is willing to give a make-up quiz, he is authorized to do so only if the student has submitted a medical certificate of illness approved by the College Physician, or evidence of other extenuating circumstances acceptable to the instructor.

DEGREES

Students are recommended by the Faculty of Barnard College to the Trustees of Columbia University for the degree of Bachelor of Arts. Degrees are granted in June, October, and February. A statement of intention to complete the work for the degree on any one of these dates must be filed with the Registrar at the announced time.

The Faculty confers honors upon students who complete work for the degree with distinction (*cum laude*), with high distinction (*magna cum laude*) and with highest distinction (*summa cum laude*). Departmental honors are awarded to graduates who have done distinguished work in their major fields.

DEAN'S LIST

A Dean's List, which contains the names of students who deserve special mention for superior scholarship, is compiled at the end of each academic year. Announcement of the list is made the following October.

PHI BETA KAPPA

The Barnard section of the Columbia University chapter of Phi Beta Kappa was founded in 1901. Election to the national honor society is a recognition of scholarship and Barnard students of exceptionally high standing are eligible.

ASSEMBLIES

College assemblies and academic meetings at which attendance is obligatory are held on Tuesdays at 1:10 p.m. Assemblies, which are planned by a joint committee of the Faculty and the Undergraduate Association, bring distinguished speakers to the College and provide

BARNARD COLLEGE

a forum for the discussion of important topics. Students are required to keep this hour free from other engagements.

HEALTH

The College Physician is responsible for the health of the college community. She is assisted by two consulting psychiatrists and two nurses. Medical examinations at regular intervals are obligatory: December 15 is the final date for seniors for the completion of their examination; May 15 for freshmen. Students will not be permitted to register for the succeeding term until they have had this examination.

Resident students and students living in Fairholm, Johnson, or Whittier Halls are required to subscribe to the University Medical plan (see page 165), which includes provision for infirmary care. Other students living off-campus may subscribe to this plan, if they wish.

All students, both resident and non-resident, must immediately report any illness, however minor, to the Medical Office. If resident students wish to have someone other than the College Physician care for them, their parents must address a request to the College Physician, and send her the name and address of the doctor before registration.

RESIDENCE

There are three dormitories on the Barnard campus, Brooks and Hewitt Halls, and a new building, Helen Reid Hall, which opened in September, 1961. Residence facilities for approximately 500 students are provided in these three halls. There are both single and double rooms in all living units. Most freshmen are assigned to double rooms.

The dormitories are under the supervision of the Director of Residence. The Executive Committee of the Residence Students Association, made up of representatives from all units, helps to decide matters relative to student welfare and conduct.

Further information concerning living in residence is available in the Barnard Student Handbook sent to all students upon admission.

Barnard has residence space available for only one-third of the student body, and since the aim of the overall housing policy is to have as many resident students as possible from different parts of the world, it is impossible to assign rooms to those who are able to commute to the College, or who are carrying a program of less than eleven points.

Ordinarily any student not residing with her parents or husband is required to live on the campus, unless she receives special permission to live elsewhere. Seniors, juniors, and sophomores are given permission to live off-campus, if they meet one of the following requirements:

1. They must be twenty-one years of age or older at the time the application is made.

GENERAL INFORMATION

2. They may live with close relatives.¹ They may live with adults, at least twenty-five years of age or older, residing in an apartment approved by parents.
3. They may live in a supervised residence, in an approved womens' hotel, or have a living-in job registered with the Placement Office.

Freshmen under twenty-one will not be given permission to live off-campus unless with close relatives.¹

Requests for off-campus housing must be submitted to the Director of College Activities before registration. Any change in residence must be reported to the Director of College Activities immediately.

A student violating these regulations is subject to suspension from college for a term, or expulsion.

THE PLACEMENT OFFICE

The Placement Office, maintained by the College as a service to alumnae and students, offers assistance in planning for and obtaining full and part-time positions. Through personal interviews and an analysis of interests and experience, its staff helps to guide students and alumnae into occupations that utilize their capabilities to the fullest extent.

The office, which is open twelve months of the year, keeps in close touch with the needs of employers through the hundreds of jobs referred to the College, through professional contacts of faculty and alumnae, and visits to schools and organizations in business and professional fields made by members of the placement staff. In cooperation with the Advisory Vocational Committee of the Associate Alumnae and a student-faculty committee a program of vocational conferences and meetings is offered on the campus, giving students an opportunity to discuss specific fields of work with experts.

The Placement Office obtains jobs for undergraduates both on and off the Barnard campus. Typical jobs include baby-sitting, tutoring, clerical, laboratory, editorial, and sales work. Freshmen are discouraged from undertaking employment, since it is difficult at first to estimate the amount of time that can safely be spared from academic work. After the first year, a student with good health and sound academic standing should be able to carry part-time employment amounting to not more than ten or twelve hours per week. Student earnings during the college year average \$150.

Summer jobs may be obtained through the Placement Office. Approximately seventy per cent of the Barnard students work during the summer and their earnings average about \$350.

¹ Close relatives shall be interpreted to mean parents, husbands, grandparents, aunts and uncles, married brother or sister, or brother or sister over twenty-one.

VII. Courses of Instruction

The College reserves the right to withdraw or modify any course or to change the instructors as may be necessary.

Course descriptions will be found in the following pages. Fuller information can be obtained from the chairmen of the departments at registration periods and during the academic year.

Room assignments are printed on separate sheets and distributed during registration.

The credit value of each course is stated numerically in points following the title in all course descriptions.

Autumn term courses are marked by odd numbers, spring term courses by even numbers, year courses by consecutive odd and even numbers. An odd number followed by suffix *y* indicates a course repeated in the spring term that is ordinarily given in the autumn term. An even number followed by *x* indicates a course repeated in the autumn term that is ordinarily given in the spring term.

Indivisible courses which run throughout the year are marked with a hyphen between the numerals (History 1-2). No credit is given for work in an indivisible course dropped at mid-year without the written consent of the instructor and the departmental chairman and the approval of the Committee on Programs and Standing.

Divisible courses which run throughout the year are marked with a comma between the numerals (English 1, 2). The first half of such courses may be taken separately. Admission to the second half without completion of the first half is granted only if the written permission of the instructor is obtained.

Courses are arranged in examination groups to avoid conflicts on the examination schedule. The groups are indicated by boldface numerals following the course title (English Composition, 6 points. [**0**]). Group **0** includes courses which ordinarily do not have set examinations. No student may elect two courses in the same examination group, other than Group **0**, without a written statement from one or the other instructor that a conflict examination will be given. This statement must be filed by the student in the Registrar's office. A complete list of courses by examination groups is given on page 190.

COURSES OF INSTRUCTION

The division of the University for whose students the course is primarily offered is designated by an alphabetical prefix as follows:

- C—Columbia College
- F—School of General Studies
- G—Graduate Faculties
- R—Program in the Arts
- V—Joint Barnard-Columbia Faculty
- W—Inter-University Faculty

The level of the course in general is indicated as follows:

- 1000-3000 Undergraduate
- 4000-5000 Graduate, open to qualified undergraduates
- 6000-8000 Graduate, normally not open to undergraduates

The symbol *x* follows the number of a course given in the autumn term; the symbol *y* follows the number of a spring term course.

INTERDEPARTMENTAL OFFERINGS

I. AREAS STUDIES

Officers in charge for 1962-63, PROFESSORS ¹ULANOV and MESKILL.

A. Foreign Areas Studies

Based on a foundation of general courses in the social sciences and the command of at least one foreign language, Foreign Areas Studies are designed to enable a student to concentrate on the civilization of some one area or country of the world.

A major in Foreign Areas Studies is available to a limited number of qualified students whose applications are approved by the committee in charge. Freshmen and sophomores anticipating such a major should consult their advisers and Professor Ulanov or Professor Meskill as soon as possible.

A student who wishes to major in Foreign Areas Studies must satisfy the foreign language requirement (page 33) before becoming a major. In her freshman and sophomore years she should also take at least 12 points in the social sciences.

After being accepted as a major, the student will be expected to specialize in the study of one country or region. For this purpose she will continue her work in language and will take such courses in the literature, fine arts, geography, history and institutions of her chosen area as may be determined in consultation with her adviser. Whenever possible, these courses will include a seminar in the senior year.

In addition to the language courses given at Barnard, courses in other languages are available to Barnard students at Columbia University.

Areas of concentration:

1. England. See special program in British Civilization, page 50.
2. Western Europe, with special reference to some one country, Professors Breunig, Carrié, Lorch, Stabenau and others.
3. Russia, Mrs. Emerson, Mrs. Kesich.
4. Far East, Professor Mahler.
5. Latin America, Professor Florit.

Major examination: Students majoring in Foreign Areas Studies are required to pass a major examination, the exact nature of which varies with the individual field. Specially qualified students may be invited to write a senior thesis instead of taking a major examination.

B. International Relations

A student who is particularly interested in the field of international relations should major in one of the social sciences, such as economics, government or history. With her major in her chosen subject, she should combine courses in

¹ Absent on leave, 1962-63.

INTERDEPARTMENTAL OFFERINGS

other subjects which deal with international themes. A mimeographed list of such courses, from which selections can be made in consultation with the adviser, is available.

In addition to the courses given at Barnard, other courses in international relations and related fields are available at Columbia University.

II. AMERICAN STUDIES

This program is supervised by the Committee on American Studies:

BASIL RAUCH, Professor of History, Chairman

ANNETTE K. BAXTER, Associate in History

JOHN A. KOUWENHOVEN, Professor of English

OTTO LUENING, Professor of Music

BERNARD BARBER, Professor of Sociology

MARIANNA BYRAM, Assistant Professor of Art History

The purpose of the program is to develop understanding of American civilization considered as a whole. The results of specialized study in all fields of learning dealing with American subject matter are assembled for the work of the senior seminar.

A major in American Studies. Students who wish to major in American Studies should obtain from the chairman of the committee an application form which is to be filled out and returned to him when major subjects are selected. Applicants must show special qualification for the major by their performance in several of the required courses. By the end of the sophomore year, applicants should complete History 9–10 and 1–2, and at least two of the required basic courses. In the junior year majors should take the remaining two basic courses and American Studies 1, 2, and in the senior year the two advanced courses and American Studies 3, 4.

Required Courses:

History 9–10, History of the American Nation from Colonies to World Power
History 1–2, Modern European History

Basic and advanced courses in social sciences and humanities to be selected from a mimeographed list issued by the chairman. These courses are distributed as follows:

Two basic full-year courses in social sciences.

Two basic full-year courses in humanities.

One full-year advanced course in one of the social sciences in which a basic course was taken.

One full-year advanced course in one of the humanities in which a basic course was taken.

A research essay to be prepared in the senior seminar is required in lieu of the major examination.

Students will read selected classics in American Studies and also important books dealing with subjects which they do not study in basic courses. Brief written reports for discussion in the meetings. The reading list for this course should be obtained by majors at the end of the sophomore year in preparation for entering the course in the fall. At the end of the spring term a summer reading assignment will be made for completion before entering the senior seminar.

3, 4. **Senior Seminar.** 8 points. [0]

A theme will be selected each year which will require the use of materials drawn from several of the disciplines dealing with American experience. Students will conduct individual research and writing programs on a particular aspect of the general theme, and present their results to the seminar.

Required of all senior majors in American Studies. Open to others by special permission of the chairman. PROFESSOR RAUCH. W 4:10-6 and frequent conferences.

III. BRITISH CIVILIZATION

This program is supervised by the Committee on British Civilization:

SIDNEY A. BURRELL, Associate Professor of History, Chairman

THOMAS P. PEARDON, Professor of Government

DAVID A. ROBERTSON, JR., Professor of English

CHILTON WILLIAMSON, Professor of History

Open to students who are interested in an interdisciplinary approach to learning within a broad general area. Particularly emphasizes historical and literary traditions of British Civilization, but is comprehensive enough to include specialized interests in the fields of imperial and commonwealth studies.

A major in British Civilization. A student who wishes to major in British Civilization must obtain the approval of the chairman of the committee before March 1 of the sophomore year. By this time the applicant should have completed or be in the process of completing History 1-2. The applicant should then plan, in consultation with the chairman, a program of study which will contain the following three required courses: History 11, 12; History 35, 36; and a senior seminar.

In addition each student should select in accordance with her interests a minimum of three courses in the social sciences and the humanities (within the general area of British Civilization) to be selected in consultation with the chairman, as follows:

One basic course in the social sciences.

One basic course in the humanities.

One advanced course in either the social sciences or the humanities.

INTERDEPARTMENTAL OFFERINGS

Senior requirement: A senior may elect to take a three-hour comprehensive examination to be given at the end of April or she may write a senior thesis, the length and standards of which will be set by the committee.

81–82. Seminar in British Civilization (same as **Government 61–62**, Section II). 8 points. [0]

Readings and discussion of selected problems in the development of British civilization from the Norman Conquest to the twentieth century. Open to majors in British Civilization and history majors interested in historiography on permission of the chairman. Prerequisite: History 11, 12. PROFESSOR PEARDON. W 4:10–6.

IV. CONSERVATION OF NATURAL RESOURCES

This program is organized and administered by a committee of members of the Departments of Botany and Geology-Geography:

LEONARD ZOBLER, Associate Professor of Geography, Chairman

JOSEPHINE MAYER, Associate in Education

DONALD D. RITCHIE, Professor of Botany

HENRY S. SHARP, Professor of Geology

The program is designed for students who have a vocational or an avocational interest in the earth as the home of man. In an urbanized society it is important to sharpen man's awareness of his dependence on natural resources. The ecology of human society is illustrated by the study of: the conservation of resources of soil, water, fishing, forests, and minerals; concern for wildlife; protection of local and federal areas for public parks; and the threat of air and stream pollution and over-crowded cities to the survival of our way of life.

Students who wish to participate in the program should consult a member of the committee. The program is flexible enough to accommodate students with special interests, including those who may wish to combine these offerings with teaching.

The following courses are suggested for a major: Botany 1–2; 7; F1003x–F1004y; Geography 1; 3, 4; G4311x; G4312y; 59; Geology 1–2; G4330y or G4332y. The senior seminar in Natural Resources is required, and a summer course in field ecology and conservation is strongly recommended.

V. INTERDEPARTMENTAL OFFERINGS

Joint majors. Students who feel that their objective can best be met by specialization in two departments may request permission to elect a joint major. Considerable scope is possible in selecting pertinent combinations in the field of the humanities, social science, or pure science. All students who are interested in distributing their advanced work between two departments and who can present a valid preliminary plan are urged to consult the chairmen concerned early in their sophomore year.

BARNARD COLLEGE

ANTHROPOLOGY

ASSISTANT PROFESSORS: SYLVIA M. BROADBENT, ANN CHOWNING (Chairman)

ASSISTANT: -----

Anthropology is the study of man in all of his biological and cultural aspects. Consequently it is related to both the natural and social sciences and also to the humanities, and a student majoring in anthropology receives a broad liberal arts education. She will also be prepared to continue in graduate work, usually necessary for a professional career in anthropology.

While every major is expected to have a general knowledge of the field, she usually concentrates her studies in one segment of it, hence the arrangement of the major examination and the combinations of courses suggested below.

All majors must take: Courses 1; 5-6; 19; 20; 51, one Barnard ethnography course and one archaeology course taken at either Barnard or Columbia.

Majors of high standing may be invited to write a senior thesis (53,54). All majors must take a major examination which is in two parts of three hours each. The first section, taken by all majors, tests the student's knowledge of theoretical concepts in anthropology; ethnography; physical anthropology; archaeology; linguistics. Greatest emphasis is on the first four topics. The second section is on a special topic chosen by each student according to her own particular interests. Suggested combinations of courses are:

For students primarily interested in the biological aspects of anthropology: Course 5-6; geography, geology, psychology, zoology and appropriate Columbia courses.

For students primarily interested in the social sciences: Courses 2; 3; 4; 14; 26; economics, geography, government, history, philosophy, psychology, religion, sociology and appropriate Columbia courses.

For students primarily interested in archaeology: Courses 11; 12; ancient history, classical civilization, art history, geography, geology and appropriate Columbia courses.

For students primarily interested in the humanities: Courses 7; 12; art history, language, literature, philosophy, religion and appropriate courses in primitive art, linguistics and musicology at Columbia.

Several major museums and libraries in New York offer exceptional opportunities for individual research which may be carried out in Courses 51; 53, 54. Students also may take part in summer archaeological expeditions for which academic credit is usually given.

ART HISTORY

PROFESSORS: JULIUS S. HELD, MARION LAWRENCE (Chairman)

ASSOCIATE PROFESSOR: JANE G. MAHLER

ASSISTANT PROFESSORS: MARIANNA BYRAM, BARBARA NOVAK

ASSISTANT: SARAH C. FAUNCE

STUDIO ASSISTANT: JANE B. ANDREWS

OFFICER OF COLUMBIA UNIVERSITY GIVING INSTRUCTION IN BARNARD COLLEGE:
ASSOCIATE PROFESSOR: EVELYN HARRISON

Art is a unique form of human expression. A study of its history will often provide a surprisingly vivid insight into the intellectual currents, the religious doctrines and practices, and the social institutions of the past. The student will see to what extent the unfolding of art is determined by conditions existing outside it, and by the impetus given it by the great creative personalities. She will in consequence gain a deepened understanding of the art of our own time and an ability, often fully appreciated only after she has left college, to enjoy intelligently the great accumulations of art in museums all over the world.

Courses in the history of art are generally of the lecture type. In several courses a third hour offers opportunities for discussions in small groups. Many courses schedule trips to museums and in other ways take advantage of the resources of New York, one of the world's great centers of art. Studio techniques are taught only in Course 1-2, but students are encouraged to take any course for which they qualify in the School of Painting and Sculpture of Columbia University. See page 60 for regulations governing these courses.

Majors in Art History are required to take the seminar, 97-98, and courses in ancient, medieval, renaissance, baroque and modern art. Studio courses do not count towards the major. A reading knowledge of French, German and Italian is highly desirable, especially for students who expect to do graduate work. Students expecting to specialize in the art of any one country should also acquire that language i.e.—for Spanish art, Spanish.

The major examination is in two sections of three hours each and is designed to test (1) the student's overall knowledge of the field, (2) her ability to analyze individual works of art, and (3) her competence in one special field, chosen by her in consultation with her major adviser and in which she has been working in the senior seminar.

1-2. Introduction to the Study of Art History. 4 points, or with laboratory, 6 points. [6]

A general study of aesthetic problems in the visual arts as preparation for a more detailed study, including a discussion of the major problems of artistic expression and their solution in the fields of architecture, sculpture, and painting, together with a consideration of the art as characteristic of certain great periods of European culture. Short papers on buildings, sculpture, and paintings in New York.

BOTANY

PROFESSOR: DONALD D. RITCHIE (Chairman)

ASSOCIATE PROFESSOR: WILLIAM A. CORPE

ASSISTANTS: MARY C. EFTHIMION, ELEANOR L. NOBACK

A major in botany should become familiar with the properties and functions of living matter, as exemplified by plants in various evolutionary groups from bacteria to grasses. Emphasis is on the relation of structure to biological function; on photosynthetic plants as the primary energy-conserving agents of the earth; and on approaches which are fruitful in explaining biological events. The science of botany has many areas yet to be explored, and botanists find opportunities for work, particularly in microbiology, in the laboratories of industry, government, universities, and scientific institutions.

Students majoring in botany take Course 1–2 and additional courses to make a total of 28 points. In preparation for graduate work, Courses 5, 6; G6151x and G6161x are recommended. Other combinations are permitted, however, and are determined by the plans of the student who seeks immediate employment, plans to teach in secondary or elementary schools, or desires an introduction to the plant world.

Botany majors are expected to take a year of chemistry. Those who intend to do graduate study must have organic chemistry, and as much work in physics, zoology, and the other sciences as time permits. Russian, German, and French, or some combination of these, will be necessary for advanced degrees.

Research projects may be selected by students desiring to do individual work. They are usually related to current faculty research, and may lead to professional publication. Greenhouse space and laboratory equipment are made available for such projects.

The major examination consists of a two-hour written test on the field, an oral session, and the Graduate Record Examination.

Because of the increasing pressure of the human species for space, food, and energy, the Departments of Botany and of Geology-Geography offer a joint major in the Conservation of Natural Resources. Students concerned with the future well-being of the United States and of man in general should read the announcement of this program on page 51, under Interdepartmental Offerings.

ASSISTANT PROFESSOR: GLORIA C. TORALBALLA

LECTURERS: GRACE W. KING, BERNICE SEGAL

ASSISTANTS: CAROL KORNFELD, _____, _____, _____

A major in chemistry is designed: (1) to make clear the orderly nature of the universe as exemplified in chemical processes, and to indicate the methods by which this order has been, and still is being, elucidated; (2) to provide the student with an understanding of the fundamental importance of chemistry both in modern industry and in the biological world; and (3) to provide for those students who wish it the necessary pre-professional training for careers in teaching, in medicine, or in chemical research.

A student who wishes to major in chemistry should take Course 1–8 and Mathematics 7 and 15y, or 15x and 16y in the first year if possible. Thereafter, she will need to take Courses 41; 42; 51; 55; 56; 58 and 99. General physics should be taken in the second year. A year of differential and integral calculus must be completed before taking physical chemistry. Majors are strongly advised to take more than a year each of physics and calculus. A reading knowledge of German must be acquired. A reading knowledge of either French or Russian is also advisable, if a student plans to do graduate work in chemistry.

Majors who complete a program prescribed by the American Chemical Society receive an accrediting certificate from the Society. Besides the courses required of all chemistry majors, these students must take at least four points of advanced lectures and two points of advanced laboratory.

The major examination is given in two parts: The general factual material is covered in a three-hour Graduate Record examination, given in April of the senior year. At about the same time there is a four-hour examination of the essay type, designed to test the student's ability to assemble facts and coordinate material in some of the broader fields of chemical knowledge.

EDUCATION

The following interdepartmental program is supervised by the Committee on Education:

HELEN P. BAILEY, Dean of Studies, Chairman

JOSEPHINE MAYER, Associate in Education, Director of the Education Program

JOSEPH G. BRENNAN, Professor of Philosophy

¹VIRGINIA D. HARRINGTON, Associate Professor of History

TRACY S. KENDLER, Associate Professor of Psychology

THE PRESIDENT, *ex officio*

The Education Program does not constitute a major; it is taken in conjunction with a major in some other subject.

The program is open to qualified seniors whose applications are approved by the Committee on Education. It is designed to offer, within the context of a liberal arts curriculum, an introduction to the field of education. With the psychology prerequisite, it affords 15 points towards provisional certification for teaching in junior and senior high school in New York State. Full provisional certification in New York and other states requires courses of study beyond the Barnard offering.

All students are enrolled in Education 3–4 which is directly concerned with the principles and practice of classroom teaching. In addition, they take either Education-History C3051x in the autumn term or Philosophy 84 in the spring.

Before the end of the sophomore year, students interested in teaching should confer with the director of the Education Program. Juniors who wish to apply for admission to the program should file application forms which may be obtained from the office of the Dean of Studies at the beginning of the spring term.

Education 3–4. Introduction to the Theory and Practice of Teaching in the Secondary School. 8 points. [9]

This course affords observation and student teaching in public and private schools. The experiences of observation and participation furnish the basis for study of principles, methods, and materials for effective teaching in the secondary school. Prerequisite: four points of psychology taken in one or two of the following courses: 7; 24; 27. MISS MAYER. A minimum of two full mornings a week and Tu 2:10–4.

A major in French has two main objectives: (a) to perfect fluency in the written and the spoken language, and (b) to develop appreciation of the literature and culture of France.

A student majoring in French must take the following language courses: 11, 12 or 13, 14; 17–18; and the equivalent of three full-year literature courses in addition to Course 7–8. The Special Reading Seminar, 37–38, may count as one of the literature courses and is particularly recommended for senior majors. Seniors with honor grades may elect the Senior Thesis, 39–40, as one of their literature courses.

Other fields: Courses in history, art history, or other fields which vary with the interest of the student should be elected after consultation with the department. The major examination consists of a six-hour section, written mainly in French, followed by a half-hour oral section.

Foreign language requirement for the degree: All new students who intend to satisfy the foreign language requirement in French must take a placement examination before registration. This examination tests the student's knowledge of grammar, her ability to comprehend written and spoken French, and her ability in free composition. Students receiving a sufficiently high grade will automatically fulfill the requirement. All others may do so by completing Course 5, 6 with a minimum grade of C–, or Course 5 alone with a minimum grade of B+.

GEOLOGY AND GEOGRAPHY

PROFESSOR: HENRY S. SHARP (Chairman)

ASSOCIATE PROFESSOR: LEONARD ZOBLER

INSTRUCTOR: JANE LANCASTER

ASSISTANT: MABEL J. MARSH

GEOLOGY

A major in geology is designed to acquaint the student with the chief divisions of the science; to give her a basic fund of knowledge concerning the structure and history of the earth, of the materials composing it, of the record of evolving life contained within its crust, and of the landforms developed upon its surface. Students will be given some first-hand outdoor acquaintance with geological phenomena, and will acquire some knowledge of the methods of geological research and the professional geologist's point of view towards the earth.

After Course 1–2, students majoring in geology will take Courses W1111x–W1112y; 19; W4661x, and 60 in partial fulfillment of the major requirement. With the permission of the department six points of calculus or of botany, chemistry, physics, or zoology may be counted towards the major. Field experience in some such course as Geology of the Rocky Mountains, offered in Wyoming each summer by Columbia University, is desirable. Remaining points for the major may be selected from the offerings of this department and the Columbia Department of Geology. Students planning to enter graduate school will take courses in related fields of science; others may plan their science programs in accordance with their needs. All geology majors are urged to take well-balanced programs in the humanities and social sciences and to keep their concentration in geology at a minimum.

The major examination in geology will consist of the Graduate Record Examination and a six-hour written examination.

GEOGRAPHY

Geography examines the use of the earth's natural resources by man and their influence on society. It studies such problems as the quality and sufficiency of mineral and organic raw materials, the adequacy of current and future food supplies, the locational patterns of human activity as affected by the natural environment, the changing technology of production and its influence on raw material supplies, urban and regional planning programs to avoid space congestion, and the peculiar resource conservation difficulties in developed and underdeveloped areas.

A major should acquire an understanding of the way in which regions of the world depend on their natural resource endowments. She should develop also the ability to prepare resource surveys and locational studies for planning purposes. In addition to the earth science core mentioned above, (Geology 1; 2, Geography 1; 3; 4), the following courses are generally required: Geography G4311x; G4312y; 16E or 16W; 17; 59. An additional course in geology is recommended as are Economics 1–2 and Botany 1–2. Further electives in science or social science will be

BARNARD COLLEGE

suggested according to the student's interests, but overspecialization should be avoided. A major may concentrate also on a foreign area by taking related courses in the geography, history, language, and culture of her region of interest.

The major examination in geography will be fulfilled by passing the senior seminar, the completion of an acceptable senior essay, and an examination on the use of maps.

CONSERVATION OF NATURAL RESOURCES

Students interested in the human ecology of the earth as the home of man should consider the program in the conservation of natural resources. This major, a combination of earth science and biology, is sponsored jointly by the Departments of Botany and Geology-Geography. The announcement of this program appears under Interdepartmental Offerings, page 51.

A major in German is designed to provide the student with (1) the ability to comprehend and interpret both written and spoken German, (2) a fair amount of ease in expressing herself in German, in speaking as well as in writing and (3) a fundamental understanding of German literature and civilization.

A student majoring in German is expected to take a minimum of 28 points above the elementary level. Normally these should include Courses 5, 6; 9, 10; 15, 16; 25, 26 or 27, 28; 31; 35; 45, 46; 61, 62.

GRADUATE COURSES

Certain graduate courses given at Columbia University are open to qualified seniors with the consent of the department and the major adviser. A description of these courses will be found in the Announcement of the Graduate Faculties.

GOVERNMENT

PROFESSORS: PHOEBE MORRISON (Chairman), THOMAS P. PEARDON

INSTRUCTORS: DEMETRIOS CARALEY, JIMMYE ELIZABETH KIMMEY

LECTURERS: JIRINA M. EMERSON, HENRY KRISCH

ASSISTANT: MARIAN S. MARKOW

The department has defined a major in government as preparing a perceptive citizen for her role in the modern world, whether she intends to become a civil servant, a teacher or a lawyer, or to engage in any similar activity.

The foundation for a major in government is Course 1, 2 and Course 45, 46. In addition a student majoring in government must take one of the fundamental courses: international relations (11, 12), modern political movements (7, 8), the American constitutional system (25, 26), or political theory (31, 32). In her senior year, in order more adequately to explore techniques of investigation and to have an opportunity for more specialized work, she must take one section of the senior seminar. As part of the work of the senior seminar, she is required to write a senior essay, to be completed to the satisfaction of the department.

These requirements are so drawn as to permit a major in government, with the assistance of her adviser, to plan a program which will place special emphasis on particular interests, such as American government, international relations, or the political institutions of Western Europe.

A student may apply through appropriate channels for permission to take any course offered in the department, for additional credit, after she has secured the permission of the instructor in that course, except Course 1, 2. Such additional credit will be based either upon a special program of reading or the preparation of a special report.

Other social sciences: In view of the essential unity of the social sciences, every student majoring in government is required to take courses amounting to 12 points distributed between two of the following departments as selected in conference with the adviser: anthropology, economics, geography, history, philosophy, psychology, religion, sociology.

OFFICERS OF COLUMBIA UNIVERSITY OFFERING COURSES OPEN TO BARNARD STUDENTS:

ASSOCIATE PROFESSORS: NORMAN I. CANTOR, MORTON SMITH

As the record of the past, history touches on all aspects of human activity. The study of history is calculated to give an understanding of the functioning of man in society through an appreciation of his past achievements and a sense of continuity combined with diversity. The basic issues that confront human society have changed but little in historic times, but their setting is forever different.

A major in history: In order to acquire a broad understanding of historical development and some acquaintance with the technique of historical study, a student majoring in history is required to take the following:

(a) Three fundamental courses: European history (1–2), American history (9–10; 33–34; 45–46; or 55–56), and either ancient or medieval history;

(b) Junior Readings, (71–72);

(c) Two courses in the category of specialized courses to be chosen with a view to concentration in the broad fields of either American or European history;

(d) One seminar for the purpose of gaining insight into the technique of more advanced work and as an introduction to specialized study and research. In connection with this seminar a student majoring in history is also required to write a senior essay which will be appraised by the department. Students are strongly advised to elect a four-course program for their senior year.

In view of the close relation of the disciplines that go under the name of social sciences, a student majoring in history is also required to elect 12 points distributed in two social sciences other than history.

NOTE: These broad requirements retain sufficient flexibility to be adjustable to the needs of students with a special interest in a particular field or area, e.g., classical civilization, cultural history, the Near East, and the program in Oriental Studies.

Combined majors: With the work in history students may combine work in other departments to make up a group of correlated courses on some large subject, such as ancient history and philosophy or art; modern history and inter-

A major in music is designed to integrate music as an art and a craft within the framework of the liberal arts.

A student intending to major in music should plan to take Courses 1–2 and V1331y in the freshman year followed by Course V1332x in the sophomore year, as these courses are prerequisite to the advanced courses in literature, theory, and history which are normally included in a major program.

In general, major programs are planned to include 28 points of advanced work (exclusive of applied music and Course 1–2) in literature, history, and in theory. Ordinarily Courses V3123x–V3124y, V1331x–V1332y, V3532x–V3533y; V3333y, V3334x, V3335x, and V3373x–V3374y are required. (Courses V3336y and V3239x–V3240y are required of students intending to specialize in composition.) Course V3125x is highly recommended as an elective. Applied music courses (a maximum of 12 points) may be counted towards the degree but are not required.

Other fields: A reading knowledge of German, Italian, or French is required. Students planning to do graduate work in musicology must know at least two foreign languages, including German and French. Courses in art history, history, philosophy, literature, and foreign languages are recommended for their relationship with musical studies, and should be elected after consultation with the department.

Students are advised to consult the Announcement of the Graduate Faculties for those courses open to seniors and others with advanced training.

BARNARD COLLEGE

At the end of the junior year students majoring in music will be expected to file with the department certificates stating that they have passed an examination in elementary piano and that they have participated for two years in the chorus, orchestra, choir, or concert band.

Students majoring in music are required to take a major examination at the end of the senior year which will test their ability to deal primarily with problems in music history, theory, and analysis.

Practice rooms: The department provides practice rooms at a nominal charge for use of students of applied music. Preference in assigning hours is given in order of application to music majors and those enrolled in courses given by the department. Application for practice time should be made at the office of Buildings and Grounds, Milbank Hall: during registration and the first week of classes by music majors, and by all others during the week following.

Library: Books, scores, and records are available at the Barnard College Library. The Columbia Department of Music maintains in 701 Journalism a lending library of books and scores. In addition, phonographs with a large collection of records are available to students.

Collegium Musicum. The aim of this organization is to acquaint the students with certain neglected and unfamiliar masterpieces of vocal and instrumental music, in order to supplement concert and recital programs to be heard in the city and elsewhere. All students majoring in music are urged to attend the meetings and to participate actively in performances. Students in other departments are also welcome. Emphasis is placed upon a variety of compositions and not on finished performance. The literature to be used embraces music from medieval times to the present day.

ASSOCIATE PROFESSORS:¹ MARION STRENG, FERN YATES
ASSISTANT PROFESSOR: MARION R. PHILIPS
ASSOCIATE: EDITH G. MASON
INSTRUCTORS: SANDRA GENTER, GWEN HOCKMAN

The program is organized and administered by the Department of Physical Education, the Medical Department and the Executive Board of the Athletic Association. It is designed to provide the students with knowledge, skills, habits and attitudes concerning health, physical activity, and recreation.

The Faculty requires physical education during the freshman, sophomore, and junior years. Students are not recommended for the degree if they fail to fulfil this requirement.

The College does not offer a major in physical education. Students who are interested in entering this field should consult a member of the department. Since the objectives and scope of the work in modern dance and fencing are related to practical theatre, students who major in English and specialize in drama are urged to take courses in this area.

Medical examinations and posture analysis: Two complete medical examinations by the College Physician are required of all students during the four years. One complete posture examination is required by the Department of Physical Education upon entrance. Subsequent posture examinations will be given whenever indicated. The results of these examinations are expressed in terms of a health and activity grade which determines the program best suited to the individual.

Freshman requirement: Three hours per week on different days. During the first term two of these hours are prescribed body mechanics and rhythmic fundamentals. The third hour is elective.

The study of Russian gives the student a key to a rich cultural and literary tradition and introduces her to one of the important critical languages of our time. In many professions and specializations there is need for people with the ability to use the language.

A major in Russian is open to Barnard students in cooperation with Columbia College. The program is designed to provide a working knowledge of the language and enable the student to read the great Russian writers with facility and critical appreciation. Majors are expected to take 28 points of work above the elementary level. Normally these will include Courses 3–4, C3335x–C3336y, and C3595x–C3596y, and at least six points of literature courses in Russian above the third-year level. C1225x–C1226y is also normally required for the major, although it may not be included within the required 28 points.

Allied subjects: History 37, 38 and Government 15 are especially recommended to majors. Students majoring in Russian should also select courses in other literatures and the humanities.

The major examination consists of a three-hour written section and an oral section. A senior essay is required as part of the senior seminar.

Foreign language requirement for the degree: All students who intend to satisfy the foreign language requirement in Russian must take a placement examination before registration. SOCIOLOGY

PROFESSORS: BERNARD BARBER (Chairman), MIRRA KOMAROVSKY

ASSOCIATE PROFESSOR: ²GLADYS MEYER

ASSISTANT PROFESSOR: ¹RENÉE CLAIRE FOX

ASSOCIATE: DOROTHY BECKER

LECTURER: JOAN GORDON

Sociology introduces students to the scientific study of society. The basic problems common to all human societies and the varied institutional solutions to these problems make up one large area of sociological interest; hence the sociological study of the family, social class, economic and political institutions, religion, science, ideology, etc. The study of rural and urban communities, human relations in groups, social structure and personality are other areas of sociological interest. So also is the understanding of social change. Sociology is concerned not only with the normal functioning of social institutions but also with social problems such as racial and minority problems, industrial conflict, crime, and other areas of social disorganization. In studying these subjects, materials about American society are given primary emphasis. However, comparative materials from other societies, pre-literate and more highly developed, are extensively used. Finally, sociology seeks to acquaint students with its methods of investigation, from which students can learn important facts about scientific method in general. A student majoring in sociology will be required to take: Course 1–2 and other sociology courses to be selected in consultation with the major adviser. Courses 31; 33; 34; 39; 40; 41; 42; 43, 44 are strongly recommended. Economics 17 is the only course given outside the department which may count towards the major.

Other social sciences: In view of the essential unity of the social sciences, a major in sociology is required to take courses amounting to at least 12 points to be distributed among two of the following departments: anthropology, economics, geography, government, history, philosophy, psychology, religion.

See also Interdepartmental Offerings, page 51.

Pre-Social Work Program: The program is designed for students wishing to enter social work related jobs immediately after graduation from college, or who wish to enrich their preparation for professional graduate training in social work or social work research.

Juniors in the program should elect Course 21–22 in their junior year and Course 81–82 in their senior year. In addition Government 10 and Psychology 27 are strongly recommended.

Major examination: A three-hour written examination in addition to the Graduate Record Examination.

A major in Spanish is designed to enable the student to understand, speak, and write the language with ease, have a general knowledge of the history and cultural development of Spain and the Spanish-American world, with a more profound knowledge of the literature and art of Spain and the Hispanic Republics. A student should concentrate at the same time either on a literary genre, whether it be poetry, the novel, or the theatre, or a period, classical or modern.

A student majoring in Spanish will be required to take Courses 13, 14; 15a–16a; 19; 21–22; and 23–24; and either 17–18; 25–26; 27–28, or a more advanced course to be chosen in consultation with the department. Courses 1–2; 3, 4; 3a, 4a, and 9, 10 do not count towards the major requirement.

Other fields: The following courses are recommended: Anthropology 4; 9; Classical Civilization 31; Art History 75, 76; French 7–8; German 55, 56; Italian W3333–3334; Philosophy 1; 43; 61, 62. A major in Spanish must broaden her study of Spanish culture by relating it to other cultures which have influenced or been influenced by it.

The major examination consists of a three-hour written examination on Spanish literature; a three-hour written examination on Hispanic civilization and Spanish-American literature; and a half-hour oral examination on literature and culture. All examinations are conducted in Spanish.

Foreign language requirement for the degree: All new students who intend to satisfy the foreign language requirement in Spanish must take a placement examination before registration. The student will be tested in her knowledge of grammar and her ability to understand, speak, and write Spanish. Those who receive a sufficiently high grade will automatically fulfill the requirement. All others may do so by completing Course 5, 6 with a minimum grade of C–, or Course 5 with a minimum grade of B+.

ZOOLOGY

PROFESSORS: INGRITH J. DEYRUP, AUBREY GORBMAN, ¹JOHN A. MOORE
(Chairman)

ASSISTANT PROFESSORS: LUCENA J. BARTH, PATRICIA L. DUDLEY

ASSISTANTS: ELLEN BATT, ROBERTA BRUCK, MADELEINE KIRCHBERGER, CLARE
MONCK

The major program is designed to serve a variety of needs. Some students major in zoology who, though interested in general education, desire specific knowledge of living organisms. Other students specialize in zoology in anticipation of graduate work in this field, or in preparation for medical or dental school. Still others plan a career in government, educational or private research organizations, or wish to teach at the elementary or intermediate school level.

The sequence of courses to be followed will depend in part on the ultimate aims of the student, but some general advice can be offered. The most important thing to keep in mind is that careful planning of the entire course sequence in zoology and related fields is necessary to provide a balanced program and to assure that any prerequisites for advanced courses are completed in proper time.

All students intending to major in zoology should take Course 1–2 during the freshman year if possible. Beyond this, there are no specific course requirements, but the following has been found to be a satisfactory sequence for most majors; second year: Courses 3 and 14; third year: Courses 8 and 13; fourth year: Courses 16 and 72.

Chemistry 1, 8, and 41 fulfill the minimum requirements in chemistry for graduate work in zoology and for entrance into medical school, and this amount is generally regarded as the minimum for zoology majors as well. A year of general physics, 3–4, should be taken by majors who plan on graduate work or a career in medicine. This may be taken during the senior year. Graduate work in zoology requires a knowledge of German and French (or some other modern language).

Students are encouraged to do summer work in zoological laboratories, such as the Marine Biological Laboratory at Woods Hole, Massachusetts. Assistance towards such work may be awarded to qualified students through the Edna Henry Bennett Memorial Scholarship Fund.

The major thesis represents an attempt to correlate and analyze the basic concepts of zoology. Further information about it may be obtained from members of the department.

1–2. General Zoology. 10 points. [1]

An introduction to the data, methods, and philosophy of modern zoology. The development of genetic concepts, the problems of embryology, evolution, and physiology. PROFESSORS MOORE and DUDLEY, and assistants. Lec. M W F 9. Lab. (4 hours) M 1:10–5; Tu 2:10–6; W 1:10–5; Th 2:10–6; F 1:10–5; Tu Th 10–12.

VIII. Professional Schools

Professional and graduate training is available at Columbia University in many different areas. Barnard College keeps in close touch with the Schools and the Graduate Faculties and class advisers give pertinent advice concerning them.

The requirements for admission vary: in some instances a Bachelor's degree is essential; in others a student is eligible after two or three years of college study. Since only a limited number of students can be accommodated, the Office of University Admissions selects the most promising applicants. Announcements may be obtained from the Secretary of Columbia University. General information concerning admission requirements of specific professional schools and certain graduate programs follows.

THE PROFESSIONAL OPTION

Under the plan of "professional option" an exceptionally good student may receive the Bachelor of Arts degree from Barnard College after the completion of three years of undergraduate work and the first year in a professional school. To be eligible for this privilege the student must have completed at Barnard 90 points of academic work which includes all specific requirements, a major of 28 points, and the major examination or major thesis.

Students transferring to Barnard from other institutions may be granted "professional option" only if they have a superior academic record. In no case will this permission be given until the student has done a minimum of a full year's work at Barnard.

Application for admission to this plan must be made to the Committee on Instruction in March of the preceding year.

ARCHITECTURE

The School of Architecture offers courses of study leading to the professional degrees of Bachelor of Architecture and Bachelor of Planning. Under normal conditions, these degrees may be obtained in four years.

The work at Barnard should include a full-year course in each of the following: English, a foreign language (preferably French or German), mathematics, through differential and integral calculus, physics, and either economics, history, government, or sociology. For students not candidates for the Barnard degree, at least one year (30 points) of college work, but preferably more, is required for admission to the School of Architecture.

BARNARD COLLEGE

BUSINESS

The Graduate School of Business offers: a four-term course of study leading to the degree of Master of Business Administration for college graduates without previous preparation in business; advanced studies leading to the degree of Doctor of Philosophy.

Applications for a degree program will be accepted only from students who are able to carry a full program in daytime classes.

To meet the educational needs of college graduates who wish to undertake advanced business training while employed, a limited number of special students with appropriate qualifications may be admitted for study, without degree credit, after an interview with the Assistant Dean, 307 Business.

DENTAL HYGIENE

A two-year course for Dental Hygienists is offered at the School of Dental and Oral Surgery, leading to the Bachelor of Science degree in Dental Hygiene. The minimum requirement for admission is two years (60 points) of college work. The preparatory work at Barnard should include the satisfactory completion of the following requirements: English, six points; biological science or chemistry, three points; sociology or psychology, three points. Applicants who lack not more than eight of the 60 credits required for admission will be considered for matriculation on condition that the eight credits be earned during the summer session between the junior and senior years.

This profession is limited to women and is controlled by state law and licensing examination. Graduates are qualified as dental hygiene teachers and public health dental hygienists.

Two scholarships of \$300 each are offered each year, provided by the Dental Hygienists' Alumnae Association of Columbia University.

DENTAL AND ORAL SURGERY

The School of Dental and Oral Surgery offers a four-year course of study leading to the degree of Doctor of Dental Surgery. The preparatory work at Barnard should comprise a minimum of six points each in English composition and literature, physics, zoology, inorganic and organic chemistry. The Admissions Committee of the School of Dental and Oral Surgery will consider carefully the entire pre-dental record and select the most promising candidates. The minimum requirement for admission is three years (90 points) of college work.

ENGINEERING

The School of Engineering and Applied Science offers undergraduate programs in chemical, civil, electrical, industrial, mechanical, mining, metallurgical, mineral, and nuclear engineering. It also offers programs in the applied sciences: engineering geology, engineering science in mechanical engineering, flight sciences, engineering mathematics, engineering mechanics, engineering science in chemical engineering, and nuclear engineering science. Each of these programs is a blend of four groups of studies: first, those designed to broaden the student's general cultural education; second, those intended to give her competence in mathematics and the natural sciences; third, the basic engineering sciences such as mechanics of materials; and fourth, those by which she will become thoroughly grounded in the application of fundamental principles to her specific field of engineering.

Because of the scope of these programs the first three years of the five-year program leading to the degrees of Bachelor of Arts and Bachelor of Science are spent under the jurisdiction of Barnard College, and a minimum of courses are taken in the engineering school. After successful completion of the first three years' work, the student applies for admission to the School of Engineering and Applied Science, where the remaining two years of more specialized engineering study are taken. This program is known as the "professional option" program.

Although the above plan is educationally desirable, it is possible in some cases for the exceptional student to complete the prescribed subjects with two years in Barnard College and two years in the School of Engineering and Applied Science. This program leads only to the degree of Bachelor of Science.

Students who are interested in engineering should offer at entrance to Barnard: mathematics through trigonometry, physics, and if possible, chemistry, in addition to the general admission requirements. For details the student should consult the Dean of the School of Engineering and Applied Science.

Further information about the engineering program and the advanced degrees may be obtained from the announcement of the School.

INTERNATIONAL AFFAIRS AND REGIONAL INSTITUTES

The purpose of the School of International Affairs is to provide a course of instruction which will equip a limited number of students for staff and administrative posts in international fields. Emphasis is upon the acquisition of an adequate knowledge and understanding of the field generally, and a specialized knowledge of one area of the world. The degree of Master of International Affairs will be awarded upon the satisfactory completion of the course.

BARNARD COLLEGE

The basic requirements for admission are: (a) a superior undergraduate record and (b) a Bachelor's degree from an approved institution. Students in the School of International Affairs as well as in other graduate departments of the University may elect to take an area concentration in one of the several area institutes: East Asian Institute, Near and Middle East Institute, the Program on East Central Europe, Russian Institute, European Institute, the Program on Africa, and the Institute of Latin-American Studies.

Further information may be obtained from the Office of University Admissions.

JOURNALISM

The Graduate School of Journalism offers a one-year course leading to the degree of Master of Science. A Bachelor's degree is required for admission to this school. Undergraduate work should, wherever possible, include courses in English composition, government of the United States, history since 1914, economics, and sociology. The applicant must have completed courses totaling 96 points in liberal arts and sciences.

LAW

The School of Law offers a three-year course of study leading to the degree of Bachelor of Laws. The preparatory work at Barnard must be of good grade. Although there is no required pre-law curriculum, students are advised to take courses in English, American political history, English political and constitutional history, economics, and in logic or philosophy or both. An undergraduate degree is generally a prerequisite for admission, although in some instances a student whose academic record and aptitude for the study of law are exceptional may be admitted after three years (90 points) of college work.

Admission is on a competitive basis. All applicants are required to take an aptitude test. This test will be given in many locations throughout the United States several times during the academic year. For further information write to the Educational Testing Service, Princeton, New Jersey.

LIBRARY SERVICE

The School of Library Service offers a one-year course of study leading to the degree of Master of Science. A Bachelor's degree in liberal arts, acceptable scores in the Graduate Record Examination, and evidence of fitness for library work are required for admission. Undergraduate courses should include two years' study of a modern foreign language.

MEDICINE

The College of Physicians and Surgeons offers a four-year course of study leading to the degree of Doctor of Medicine. The preparatory work at Barnard must be of good grade and must include the requirements prescribed by the New York Board of Regents as follows: approved courses in English, physics, and biology, covering at least one academic year each, and approved courses in chemistry, including organic chemistry, covering at least one and one-half academic years.

Before admission to the medical school, the entire pre-medical record of each applicant is carefully examined in order that those who are adjudged the most promising candidates for the profession may be selected. While the minimum requirement for admission is three full academic years of college work, the complete college course of four years is considered the most desirable preparation.

NURSING

Columbia University offers a course of two years and nine months' duration leading to the degree of Bachelor of Science. This program is conducted on the campus of the Columbia-Presbyterian Medical Center. Preparatory work should comprise work in chemistry or biology, psychology, and sociology. Acceptance of a candidate is based on grounds of character and health as well as on fulfillment of the academic requirements. The minimum requirement for admission is two years (60 points) of college work. The course for students who hold a Bachelor's degree is two years in length.

OCCUPATIONAL THERAPY

The Faculty of Medicine offers a program of professional study in Occupational Therapy leading to a Bachelor of Science degree. Two years (60 semester hours) of acceptable college work are required for admission, including a minimum of six semester hours in biology (including zoology), chemistry or physics; six semester hours in psychology, and three semester hours in sociology. The course of study is of twenty-five months' duration, including two academic years and nine months of clinical experience.

A graduate program of seventeen months is offered for students already possessing a Bachelor of Arts or Science degree. The applicant must meet specific prerequisites of six semester hours in biology (including zoology), chemistry or physics; six semester hours in psychology and three semester hours in sociology. On satisfactory completion of the program of one academic year and nine months of clinical experience, the Faculty of Medicine awards a certificate.

BARNARD COLLEGE

Acceptance of a student for admission to either program is based on evidence of personal capabilities, a good record of physical health, and emotional stability.

Additional information and guidance may be obtained from the Office of Occupational and Physical Therapy, College of Physicians and Surgeons, 630 West 168th Street, New York 32, N. Y.

PHYSICAL THERAPY

The Faculty of Medicine offers a program of professional study in Physical Therapy which leads to the Bachelor of Science degree. The candidate for admission must present two years (60 points) of acceptable college work, including six points in biological science, six points in physics, and six points in psychology. Requirements for admission to the licensure examination for physical therapists in the State of New York include six semester credits in biology, six in chemistry, and six in physics. Students who plan to practice in New York State should accordingly fulfill the remainder of these requirements.

The course of professional study covers twenty-one calendar months, including two academic years of didactic instruction and clinical practice, and a two-month clerkship following the junior year of study.

A graduate program of one calendar year is offered for students already possessing a Bachelor of Arts or Bachelor of Science degree, who have completed the following points in science: eight semester credits in biological science; six semester credits in physics; ten semester credits in social science (of which six must be in psychology). The Faculty of Medicine awards a certificate upon satisfactory completion of this course.

Acceptance of a student for admission to either program is based on evidence of personal capability, and on health and character as well as on the fulfillment of academic requirements.

Information and guidance regarding courses may be obtained from the Office of Physical and Occupational Therapy, College of Physicians and Surgeons, 630 West 168th Street, New York 32, N. Y.

UNION THEOLOGICAL SEMINARY

Union Theological Seminary offers courses of study leading to the degrees of Bachelor of Divinity, Master of Religious Education, Master of Arts in the fields of Christian Education, Biblical Literature and Comparative Religions, and Master of Sacred Music.

Since accommodations at the Seminary are limited, it is necessary to select from the total number of applicants for admission those who in the light of their expressed purpose, personality, and record of scholarship give especial promise of usefulness in some form of Christian ministry. The requirement for admission is a Bachelor's degree, including special work as indicated below:

- a. Bachelor of Divinity. The preparatory work for this three-year course should include the study of philosophy, especially the history of philosophy, and courses in history, literature, economics, psychology, and at least one modern language, either French or German. A knowledge of Greek is desirable.
- b. Master of Arts in the fields of Christian Education, Biblical Literature and Comparative Religions. Preparatory work for these courses should include: (1) in Christian Education, some knowledge of the Bible, of the philosophy and ethics of the Christian religion, and of either the psychology of personality or the principles of education; (2) in Biblical Literature, a working knowledge of Hebrew and Greek sufficient to proceed at once to exegesis based on the original languages of the Bible; (3) in Comparative Religions, a general knowledge of the history of religions and a working knowledge of either French or German, and such language as may be necessary for study in the candidate's field of special interest. Students with satisfactory preparation in these subjects may complete the work for the Master of Arts degree in one year.
- c. Master of Religious Education. Preparatory work for this course should be the same as that for the Master of Arts in Christian Education as indicated above.
- d. Master of Sacred Music. Candidates for this degree must give evidence of the completion of an amount of work in music sufficient to enable them to enter with profit upon the courses in sacred music.

The Seminary also participates in joint programs leading to the degrees of Master of Arts and Doctor of Philosophy in the field of religion at Columbia University.

IX. Fees

Barnard does not charge its students the full cost of their instruction, since its Trustees believe that admission to college should be based on intellectual ability and promise, rather than financial resources. Student payments meet only two-thirds of the total educational expense; the balance must be obtained each year from investment income and from gifts of the Associate Alumnae and other friends of the College. By continuous efforts to increase annual gifts and endowment, and by economy of operation, the College keeps charges as low as possible without sacrificing the quality of its instruction.

III. Other students

Matriculated students taking less than a full schedule (11 points or less) and all non-matriculated students are required to pay the registration and medical fees each term, as well as \$55 per point for all academic work and \$5 for physical education, if this is required.

¹ Includes registration and medical office fees.

² This additional fee is required for all non-resident students living in Fairholm, Johnson, or Whittier Halls and for students participating in the Medical Health Insurance Plan.

³ Includes room, board, laundry and required participation in Columbia University Student Medical Plan. Board is available to non-resident students at the annual rate of \$450.

All matriculated students are also required to pay the Undergraduate Association activity fee.

Students registering in absentia for one term or for one year are required to pay a registration fee of \$15.

IV. Deposits

All students: In order to obtain a place on the college roll for the ensuing autumn or spring term, students who are currently enrolled must pay a deposit of \$50 on or before May 15 and December 1 respectively. Applicants for admission or readmission must make this advance payment at the time they signify their acceptance of admission or readmission to the College. The deposit of \$50 will be applied to the charges of the autumn or spring term, as the case may be. The entire deposit is forfeited in case of a student's failure to enter, or of her withdrawal.

Resident students: A room deposit of \$50 is payable by May 15 to secure the assignment of a room for the following academic year. One-half of this deposit (\$25) will be applied to the charges of the autumn term and the remainder to the charges of the spring term. The entire deposit is forfeited in case of withdrawal.

Deposits for the use of apparatus and material required in:

Chemistry 41, 42, 58, 63, 87, 88, each course \$15

V. Payment of Charges and Fees

All charges and fees are payable semiannually in advance. No reduction is made for late registration. Registration is not complete until all charges and fees are paid. Failure to complete registration (including the payment of all charges and fees) on time imposes automatically the statutory charge of \$15 for late registration.

Payment of charges and fees (accompanied by the stub of the bill) must be made by September 15 for the autumn term and by January 15 for the spring term. If payments are mailed, envelopes must be postmarked not later than September 15 or January 15 respectively. Students admitted for the autumn term after September 10 must pay their bills not later than September 26.

The privileges of the College are not available to any student who is delinquent in the payment of her charges or fees.

All charges and fees are subject to change at any time at the discretion of the Trustees.

Checks or money orders in payment of all charges and fees must be in U. S. currency, payable to Barnard College. Checks or money orders should be made out for the exact amount of the payment due. No check which is made out for more than the correct amount will be accepted.

Every financial obligation to the College must be met by January 1 of the autumn term or by May 1 of the spring term, if the student is to be permitted to take her examinations and receive credit for the term's work.

(The application fee of \$15, payable when application for admission is filed, is not credited on the bill and is never refunded).

Note: NEW YORK STATE SCHOLARS at the time of registration must file with the Bursar notice of their official award, received from Albany.

VI. Deferred Payment

In special cases, upon payment of a nominal fee, permission may be obtained from the Bursar to defer the payment of approximately one-half of the total bill for the term until November 15 or March 15, provided that such permission is granted before August 15 (for the autumn term) or December 15 (for the spring term).

Any application for the privilege of deferred payment made after August 15 or December 15 will be subject to a late payment fee of \$5.

Where the privilege of deferred payment has been granted, each payment must be made on the due date or an additional fee of \$5 for late payment will be incurred. In case of withdrawal the entire bill for charges and fees will become due immediately.

VII. Refunds

As contracts with instructors and provisions for education and residence are made by the College for the entire year, no refunds of the charges and fees can be made after they become due, except in cases of extreme emergency, of which the College shall be the sole judge. Refunds for the board portion of the charges may be made at the discretion of the College and will be computed on a pro-rata basis from the date of withdrawal to the end of the term. Application for the refund must be made in writing at the time of withdrawal to the Director of Residence Halls. The \$50 deposit paid on tuition and one-half (\$25) of the room deposit required for residence are excluded from any refund.

BARNARD COLLEGE

No refunds for board will be made for students who wish to take meals off-campus. Barnard is non-denominational and no provision can be made for special diets.

IX. Other Expenses

There are other miscellaneous expenses not payable to the College for which the student should plan. These include: a gymnasium costume, approximately \$17; Student Government dues of \$2 for resident students; and a minimum of \$50 per year for textbooks. Non-resident students should estimate a minimum of \$100 (\$3 weekly) for lunches, if they plan to buy them in the cafeteria or snack bar. Individual estimates of expense should also include: minimum allowances for transportation for non-resident students, or two round-trip coach fares from home to college for resident students; clothes (\$150); incidentals (\$150-\$200).

X. Medical Plan

Campus medical service is available to all students and is covered by the comprehensive charge payable each term. Medical examinations are required for freshmen and seniors. (Students will not be allowed to register for the succeeding term until they have had the required medical examination. The final date for completion of the examination by the College Physician is December 15 for seniors; for freshmen May 15.)

Resident students, students living in Fairholm, Johnson, or Whittier Halls, and students who subscribe to the Medical Health Insurance policy (see XI.) are required to pay an additional medical fee of \$10 each term. This allows them to participate in the Columbia University Student Medical Plan during the academic year. Non-resident students living at home may also participate in this plan by paying the additional \$10 fee each term. The CUSMP entitles the student to the following services:

A. Barnard College Medical Office: Medical treatment for conditions not requiring bed care; admittance to the Columbia University Infirmary.

B. Columbia University Medical Office: Consultation with specialists; surgical treatment of minor surgical conditions; laboratory and X-ray studies as deemed advisable. All students must be referred by the Barnard College Physician.

Not provided: Dental care; fitting and provision of glasses; house calls.

C. Columbia University Infirmary: Bed care for ten days a term will be provided without charge.

D. St. Luke's Hospital: For more acute surgical and medical conditions requiring hospitalization, four days' ward care at St. Luke's Hospital will be available each term. In practically all situations when additional bed care is needed, it can be spent in convalescence in the infirmary.

XI. Medical Health Insurance

Students who pay the additional medical fee are eligible to purchase a special student commercial policy which provides basic accident benefits in or out of the hospital, basic hospital benefits and doctor's visits. In addition, a major medical expense benefit up to \$5,000 is provided for medical expenses incurred either at home, in the hospital, or in the doctor's office, if resulting from either an accident or an illness. Benefits apply on or off the

campus, 24 hours a day, on a calendar year basis, including vacation periods, from September 1 to August 31.

The cost of this insurance is \$20.50 per year (from September 1) or \$12.80 for period February 1-September 1. See the Bursar's Office for further details.

XII. Insurance for Foreign Students

Foreign students who are not residing in the United States with members of their families are required to participate in the Columbia University Student Medical Plan and the Medical Health Insurance policy described above. The fee of \$10 each term for the former (CUSMP) will be included in the bill of all students living in the Barnard residence halls. The Medical Health Insurance fee of \$20.50 a calendar year is payable to the Indemnity Insurance Company of North America. Full information concerning this policy will be mailed to the student with her college bill.

XIII. Hospital Insurance

All students are eligible for membership in the Associated Hospital-United Medical Service for twelve consecutive months beginning October 1 at a cost of \$53.28. See the Bursar's Office for complete details.

XIV. Safekeeping of Students' Funds

Barnard College is not prepared to receive funds from students for safekeeping nor to cash personal checks or travelers checks.

To cover their immediate expenses, students should provide themselves with travelers checks, which can be cashed at a local bank, or money orders, which the Columbia University Station of the U. S. Post Office will cash upon presentation of the bursar's receipt. A bursar's receipt is issued when a student registers at the beginning of each term.

It is also possible to open a checking, special checking, or savings account at one of the local banks:

Chemical Bank New York Trust Company
Broadway and 113th Street, New York 25, N. Y.

First National City Bank of New York
Broadway and 111th Street, New York 25, N. Y.

American-Irving Savings Bank
Broadway and 111th Street, New York 25, N.Y.

X. Financial Aid

In so far as possible, the College helps qualified students who have financial need. In effect, every student at Barnard receives some financial aid from past donors, since the College fees do not cover the entire cost of her education today. The balance is made up by endowment income and gifts. In addition to grants and loan funds, which are never sufficient to meet all demands, opportunities for self-help (see Placement Office, page 45) are provided to open Barnard's doors to girls of superior talent from all sections of the country. Students are urged to investigate state aid programs and college tuition financing plans offered by local banks and insurance companies.

ANNUAL AWARDS

Grants and loans are awarded annually by the Committee on Financial Aid to full-time students of high scholarly ability, excellent character, and promise of future accomplishment. The amount of the award depends on the student's financial need and is determined from the following:

1. The amount of the parents' contribution as estimated from information given on the College Scholarship Service forms.
2. The amount available from other sources, such as the New York State Regents' Scholarships.
3. The student's savings distributed over a four-year period.
4. The student's summer earnings (at least \$200 for freshmen and \$300 for sophomores, juniors and seniors).
5. After the freshman year, the student's earnings from part-time work during the academic year (\$200).

The basic budget used to compute financial need includes, in addition to the college fees, allowances for other expenses as described on page 164.

Awards are for one year only. Students in good standing are eligible to apply for further assistance in subsequent years.

Applications for financial aid for entering students may be obtained from the Admissions Office and should be returned to that office on or before February 15. The student applies in terms of financial need, not for any one of the specific scholarships listed in the following pages.

Entering students who are applying for aid must also file a financial statement with the College Scholarship Service, Box 176, Princeton, New Jersey, or Box 27986, Los Angeles 27, California, not later than February 15 of the senior year in high school. Forms may be obtained

BARNARD COLLEGE

from the school or they will be sent by the College Scholarship Service on request. The Service acts as a central filing and distributing agent. Photographic copies of the completed statement will be sent to the colleges named by the applicant.

Each applicant must complete and file both forms as instructed above in order to be considered for financial aid. Applicants are notified of awards at the time they receive their notice of admission to the college.

If an entering student applies to more than one college in the Seven College Conference (Barnard, Bryn Mawr, Mount Holyoke, Radcliffe, Smith, Vassar and Wellesley), her application is reviewed by the appropriate members of the Conference in order that awards may be made on a non-competitive basis. Amounts vary only according to the difference in fees and, whenever possible, are equivalent in value.

STUDENTS IN COLLEGE: Students in college who are in need of financial aid and are academically qualified must file applications on special forms obtainable in the office of the Dean of Studies. Applications must be filed on or before February 4, 1963.

Applicants will be notified as soon as awards are made. Recipients are requested to inform the Dean of Studies immediately, in writing, of their plans with respect to the funds assigned to them.

LOAN FUNDS

The Associate Alumnae of Barnard College maintain a Student Loan Fund from which loans to seniors are made. In 1950, through a gift of \$26,000 from Mr. and Mrs. Gerard Swope and Miss Henrietta Swope, an additional fund known as the Swope Loan Fund was established. In the spring of 1960, the Barnard College Loan Fund was established by the Board of Trustees to help meet the increased need of students. In 1961, the Pauline Hirschfeld Loan Fund was established with a bequest of \$5,000 from Pauline Steinberg Hirschfeld '08.

These funds are administered by the Faculty Committee on Financial Aid. Loans are regularly assigned to upperclassmen as part of their financial aid award; the maximum loan per year is \$500. No interest is charged while the student is in college. Payments on principal may be made at any time before graduation. Principal of indebtedness totalling \$300 or more is repaid in semi-annual installments of \$150 each. Interest is charged from the first day of the month after graduation at the rate of 3% per annum.

The Morris Morgenstern Student Loan Fund of \$5,000 was established in 1959. Loans not to exceed \$500 are granted upon application to the Chairman of the Committee on Financial Aid to any deserving undergraduates, other than freshmen, who are in need of temporary emer-

gency assistance. Loans are granted for short terms, no longer than a year from the date of issue. No interest is charged, unless the loan is not repaid by the specific date agreed to by the borrower.

A list of scholarship funds established by gifts or endowment follows. The income from such funds, both unrestricted and restricted, and from the funds for grants-in-aid is available each year.

XII. Associate Alumnae of Barnard College

The Associate Alumnae of Barnard College is made up of over twelve thousand members from all states of the Union and more than sixty foreign countries. The Associate Alumnae serve the College in three important ways: by interpreting Barnard to the community; by keeping local secondary school students informed about Barnard; and by aiding in the support of the College.

The Alumnae Association functions through a group of officers, directors and alumnae trustees elected by members of the Association. The central office of the Associate Alumnae is 118 Milbank Hall.

Barnard College Clubs, the Alumnae Council with nationwide membership, and a group of qualified and authorized alumnae make it possible to find spokesmen for Barnard at distances far from New York.
